NOT
A BEVERAGE.

No disease germ can POSSIBLY remain lodged in the body if this Great Remedy is carefully and constantly used. Prof. Wm. T. Carter, State Chemist of Connecticut, writes:

"I have analyzed a great many samples of 'Duffy's Whisky' and have found that it is absolutely pure, as I never found this to be the case in any other whisky I had examined. These facts must command it to general use and public favor."

The Ice Crop at Last.

Since Sunday there has been a little ice cutting along the creek east of the city. The ice varied from three to four inches thick. The extreme cold of night before last and yesterday increased it to six inches or more. Yesterday large forces of men were engaged by all the ice packers up the valley to go to work this morning and pack ice, and the prospect is that there will be a fairly good crop harvested before it gets too warm for work. Up in the mountains along the Baltimore & Ohio and Senator Davis's railroads there has been thick, clear, excellent ice for a week or so, and all the ice houses have been filled. In the Reymann Brewing Company, of this city.

Van Baker's Fondness for Poker.

Commenting on the story of Van Baker's poker game with Rich Forsythe in the county jail, the *Steuensville Herald* says: Baker is at his old game again. He is an inveterate gambler, and in his last game he lost \$100. He is now bent on making a big haul to pay his debts. The last game of poker he is known to have played in Steuensville he quit owing the bank \$22, the amount he lost yesterday. For this loss he will not get much sympathy in Steuensville, as he has always been known as a squalor.

WORKING IN TWO STATES.

Another House Breaking on the Island Yesterday Morning.

MARTIN'S FERRY HAS 'EM, TOO

One of the Boldest and Most Idiotic Freaks a Burglar ever Indulged In—He Enters a Woman's Room and Wakes her Up.

Another burglary, one of the most insane in methods ever reported, was committed on the Island at an early hour yesterday morning, just after midnight, in fact, and thanks to the reckless way in which the thief behaved, he left with nothing to reward him for his trouble.

In the neighborhood of one o'clock Mrs. Robert Miller, who resides on South Broadway, not far from the scene of the burglaries of Tuesday morning, and whose husband was over in the city, was awakened by a man standing by her bedside, who had hold of her arm. She at first supposed it was her husband, but a second look showed it to be a stranger, who did not fit very well.

Mrs. Miller screamed, and the fellow left. A large party was in progress at the residence of William Young, in the adjoining house, and some of the guests heard the scream. The robber was seen to flee to the alley in the rear of the premises, and run north. He had entered by a side window. Only one man was seen.

A telephone message was sent to police headquarters, and Officer Short went over and joined Officer Lakos, who was already on the scene, in a thorough search for the man. They went over to Bridgeport to look for suspicious characters, but four or five Nightwatchman Sprill also aided in the search.

The description of the man and his peculiar behavior furnish a clue to his identity. Officer Short was detailed to go over to the island, and on Tuesday night or yesterday morning burglars effected an entrance to the grocery of Mr. Henry Bone, on Locust street, Martin's Ferry, through the back window. They broke one of the lights of glass, and removing the wire took out the lower frame. Entering they ransacked the room and must have been in it quite a while, judging from the appearance of everything in the morning. They carried off fifty cents and some change, and a number of bottles of medicine, and a box of soap.

It looks very much as if the operators are well pleased with the Hardin's run territory, just back of Cumberland, where they are using their best endeavors to secure leases and paying big cash bonuses in a number of instances.
